## THE LOG

\*\*\*\*\*

M.O.P.H. (Military Order of the Purple Heart) National Convention at The Schroeder, and other locations in the area, Mr. Robert Schroeder was Convention Chairman, Judge Clair Voss of Waukesha National Commander wrote ALL operators a personal letter of thanks

\*\* \*\* \*

Wisconsin State Fair-10 days of hectic activity, fine display and excellent traffic handling drill by ALL participants, just below 2000 individual messages were sent.

\*\* \*\* \*

STADIUM TRAFFIC DETAIL: under the direction of the Sherrif, seems we have developed a new approach to traffic handling, everybody is pleased with our effort, more on this later.

\*\* \*\* \*

M.R.A.C. Picnic-Aug. 28th, biggest attendance in YEARS, great to see the newcomers taking hold so well.

\*\* \*\* \*

National Air Show Sep. 11 and 12

Crowd estimated at a quarter meg just about 60 operators took part and richly deserve the great praise they received--all our practice and drills are paying off, the Air Show proves our versatility as a Communication Master Complex.

\*\* \*\* \*

Chief Bartels of Shorewood was LOUD in his praise of the great speed and effectiveness of the NET that responded to his call.

## SPLASHINGS FROM THE FALLS

By Don Evenson K9JYX, President  
Meno. Falls Radio Amateurs Club

Sid Hatch, K9JKT hosted the Falls Club for their August Meeting with a backyard beer and brats party. On the agenda was swimming. Ah yes, the air was cool, but the pool was heated, Oh the envy of those who didn't bring their swim togs and had to sit and watch the goings on.

The Club Call of the MFRAC, K9RHH is being modified to W9DCU in memory of A. B. Van Alstyne, Van was a long time member and worthwhile contributor to the Club, he probably helped more fellows along the way to an amateur license, than many of us have friends.

The Falls Club meets in the hospitality room of the First Federal Savings and Loan Building on Appleton Avenue, right across from the Fire and Police Station, in the Falls - we start at 7:30 PM SHARP.

CHECK--MEETING PLACE

SEE BELOW

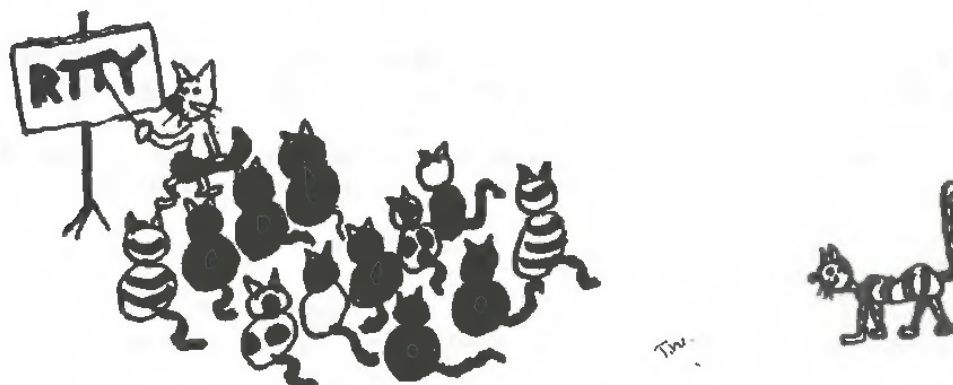

Coffee and, of course

Yo all come

K9JYX Don

Menominee Falls Bank Building 1 1/2 blocks NORTH of above.

## THE ANNUAL CATS MEETING

The 12th annual Chicago Area Teleprinter Society meeting will be held on Sunday October 2nd, 1966 in Meeting Room SEVEN of McCormick Place, Chicago, Ill.

Doors open at 10:00 AM for swapping, rag chews and informalities, the Technical sessions are scheduled for 1:00 PM. No charges for admission or attendance, Door Prizes drawn.

Following the sessions at McCormick Place there will be a dinner at Batts Restraunt, near McCormick Place, reservations will be necessary at a cost of \$5.50 per person, as usual a Model 28 will be drawn for amongst those in attendance at the dinner. Robert Paculat, W9JBT of 1327 N. Hamlin Ave., Chicago, Ill. 60651 will accept your reservations and prefers a check to accompany.

FL8AC de W9ONY

A call such as above nearly 10 years ago started off a relationship that was continued a couple of weeks ago, right here in Milwaukee.

When Fred made a routine call to FL8AC in Djibouti French Somaliland, some radio contacts and many letters later, Guy Malosse now of Lyon France advised Fred that he was about to visit Stateside and spend some time in the area.

Malosse' engineering background was bringing him to LaCrosse as a trainee at the Trane Company of that city, and on his first weekend he came to Milwaukee to fill a desire of many years to visit Fred Zolin.

Some of us had the pleasure of visiting with Malosse, and what a great experience, to hear him discuss the actual problems of a radio Ham in French Somaliland, and even in his native France, has a sobering effect on us locals. Just to hear him explain in awe about the HUGE radio stores, with ALL those parts, the antennas and accessories, sort of makes you wonder.

Malosse expects to be in the State for a few months and may get back to Milwaukee, during his visit here he was a house guest of the Zolins.

Incidentally, on their initial radio contact Fred and Guy were using 60 Watts, and Zolin was mobile.

Ed note) Sunday Journal of August 7th carried a story on the visit.

\* \* \* \* \*

#### HAM-QUEST 67

This new program on the part of ARRL has something in it for everyone, MRAC and every other affiliated club will recognize this very carefully designed activity as meaningful--and profitable, not in dollars but in new members and new vitality. The entire program will be reviewed and discussed at the NEXT MRAC meeting, October 6 at 7:45 at MSOE, Broadway at East State--(no stairs to climb--no parking problems).

\* \* \* \* \*

How about 10 and 15 these days?? those openings are certainly like old P.S. Days (pre sun-spot) Phone patches with Guam, T.H. and American Samoa WHeeee. . . better get yourselves set for a great winter of operation. Give that DXCC a BOOST.

\* \* \* \* \*

Excerpted from "Armed Forces"

We often pondered the extremely fancy sounding phraseology that has burst upon our electronic lives--especially since NASA and IBM, along with DEW-line, Solid Fuel and Digital Computing opened the Career Gateways to the Ivy Leaguers.

Not that some of we "Unharvard" folks lack certain native ability to create a "Black Box" that does something, our only fault (if it is one) appears to rest in our ability to describe the thing.

Thus the need for a "BUZZPHRASE GENERATOR", use of which gives a person INSTANT EXPERTISE, in matters of description.

The Buzzphrase generator consists of three columns of words numbered ZERO to NINE.

Column 1	Column 2	Column 3
0. Integrated	0. Management	0. Options
1. Total	1. Organizational	1. Flexibility
2. Systematized	2. Monitored	2. Capability
3. Parallel	3. Reciprocal	3. Mobility
4. Functional	4. Digital	4. Programing
5. Responsive	5. Logistical	5. Concept
6. Optimal	6. Transitional	6. Time-Phrase
7. Synchronized	7. Incremental	7. Projection
8. Compatible	8. Third-generation	8. Hardware
9. Balanced	9. Policy	9. Contingency

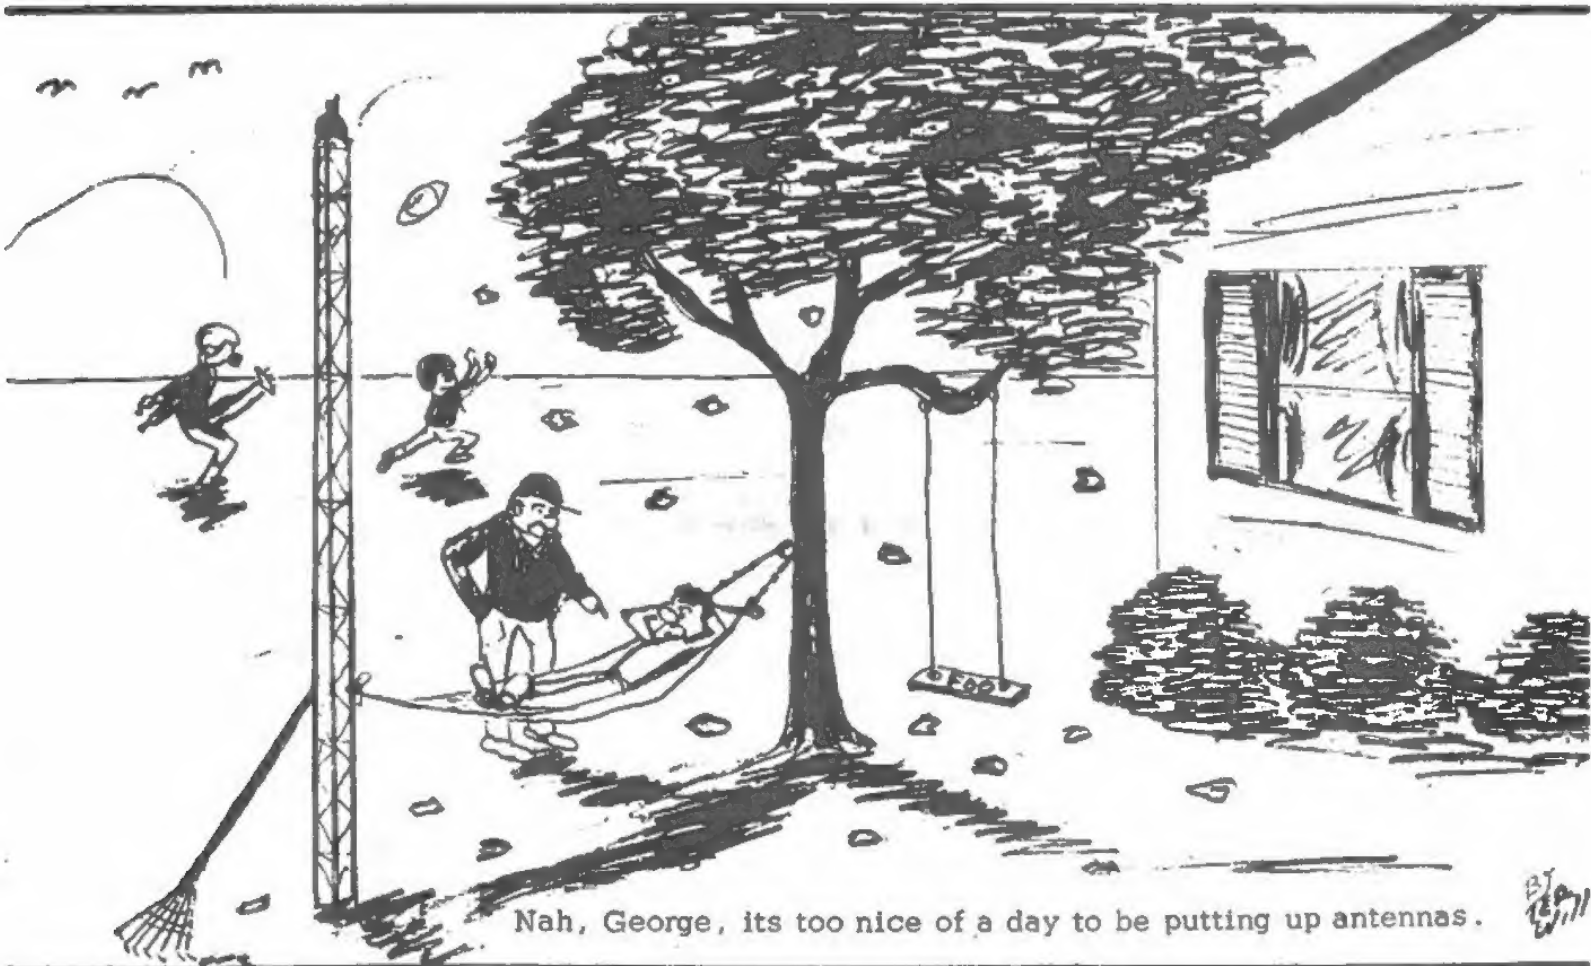

The procedure is simple. Just think of ANY three digit number at random, then select the corresponding buzzword from each column. Put them together--and ZAP, you sound just like you KNOW what you are talking about.

Take for instance number 322, with word 3 from column 1, word 2 from column 2 and word 2 from column 3. You now have Parallel Monitored Capability--you don't actually KNOW what it means but have no fear, neither do they.

The applications of the generator are limitless, try a few for size you will soon master the art of the ringing declaration and become aconnoisseur of convoluted phraseology and no one will dare take exception to your rationale, with thus broadened horizons your programs are assured. No one will have the remotest idea of what you are talking about--AND they are not about to admit it.

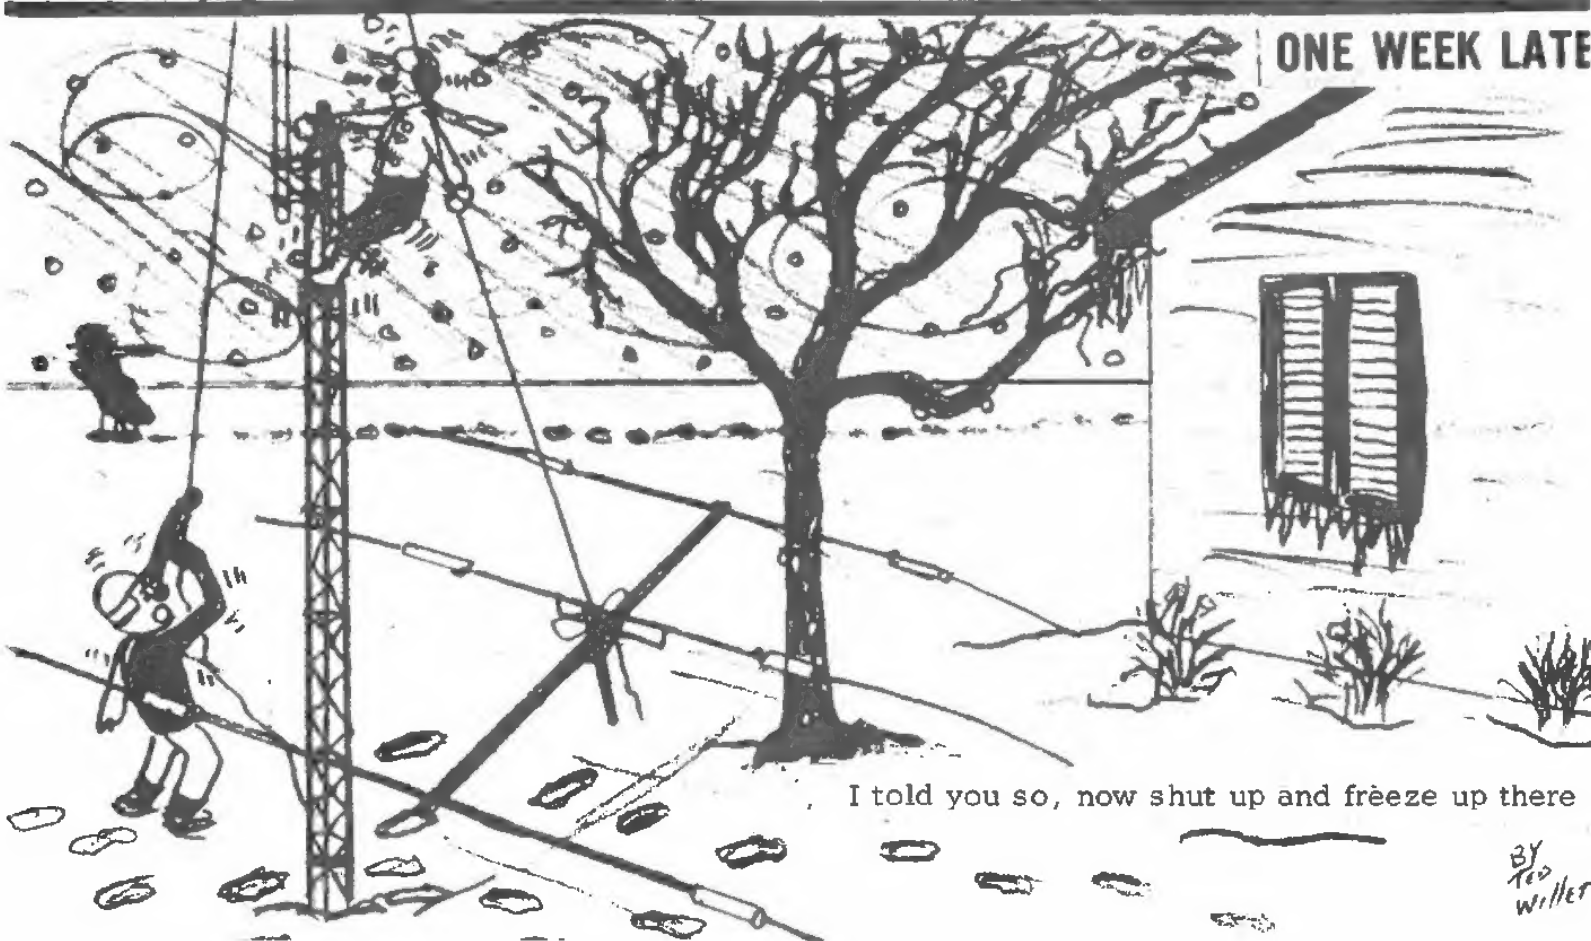

# HAMATOON

By Ted W9NHE

Nah, George, its too nice of a day to be putting up antennas.
